Step 1 — Back Cover

- Heat the back cover for about 1 to 2 minutes until you feel the adhesive sticker is soften a lot.

Step 2

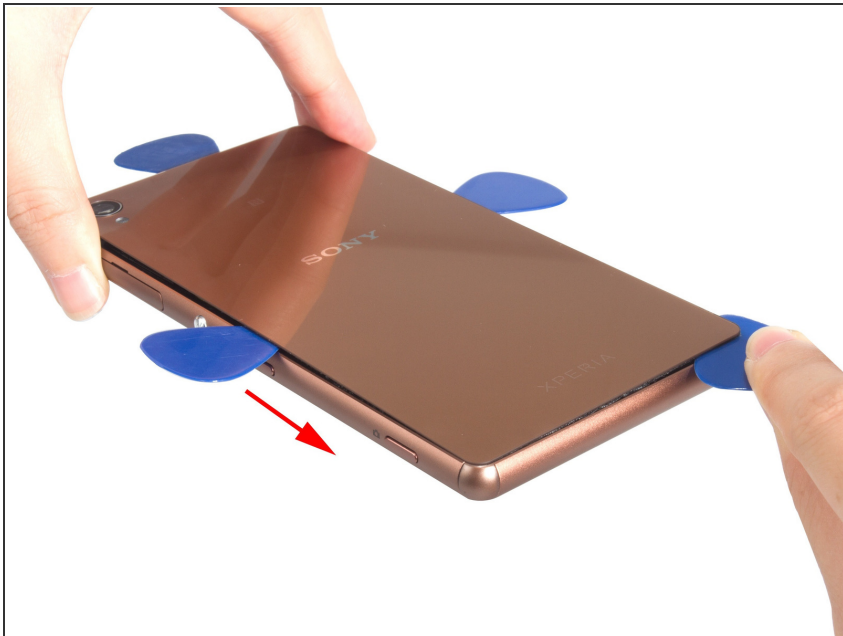

- Place the suction cup on top part or bottom part which you think is easy to carry and open a gap.

Step 3

- Insert guitar pick into the gap and slide to cut the sticker around the back cover.

Step 4

- Especially the left side, you'd better handle as the direction we marked or you are likely to break the flex cable on the left bottom corner.

Step 5

- Remove the back cover easily. It comes with camera lens and NFC.
- And you can place your new back cover, press the adhesive sticker and done the replacement.

To reassemble your device, follow these instructions in reverse order.
